

Scott Walter's interest in wildlife evolved during a childhood spent in the woods, fields, and marshes of southern Wisconsin. He earned a BS in Biology from Beloit College, and MS and PhD degrees in Wildlife Ecology from UW-Madison. Professionally, his career has spanned 10 years of teaching and research at UW-Richland, a stint as WDNR's Upland Wildlife Ecologist, 3 years as the Director of Conservation Programs for the Ruffed Grouse Society, and his most recent role as Large Carnivore Specialist, again with the DNR. Scott spends his non-work time with his wife, Erica, and their 5 kids on his 7-generation family farm in Richland County.
